

**Job posting:**

*Researcher in the fields of epidemiology, biostatistics and public health*

**Organization:**

*Institute of Preventive Medicine, Environmental and Occupational Health, Prolepsis (located in Athens, Greece)*

**Location:**

*Athens, Greece*

*The Institute of Preventive Medicine, Environmental and Occupational Health, Prolepsis, an organization active in public health, established in 1990 and located in Athens, Greece, is seeking to fill two positions of Senior and Junior Researcher to contribute to the organization's work in the fields of epidemiology, biostatistics and public health.*

*We welcome applications from committed and enthusiastic candidates who have:*

- **For the senior position:** *either a doctoral degree in biostatistics, epidemiology and/or public health or a master's degree with a minimum 5-year work experience.*
- **For the junior position:** *a master's degree in biostatistics, epidemiology and/or public health and 1-year work experience.*

*All candidates should have an excellent command of scientific English and Greek, as well as relevant publications in peer reviewed journals.*

*The Researcher will be joining a multidisciplinary scientific team (physicians, researchers, health promotion specialists, nutritionists, sociologists, etc.) and will be working on the design and implementation of research and applied programs, in Greece and Europe.*

*Interested candidates should submit CV and a brief personal statement in a cover letter to [info@prolepsis.gr](mailto:info@prolepsis.gr) (tel. +302106255700). Further information on Prolepsis Institute can be found on the webpage [www.prolepsis.gr](http://www.prolepsis.gr).*
