Promotional activities of the iHeal Project are going at full speed without stopping

EU projects were the main topic of the Senate of Çanakkale Onsekiz Mart University. Rector Prof. Dr. Sedat MURAT pointed out the importance of the use of European Union funds for the country and for the university. He stated that the university pays special attention to the academic staff who are active in this field. Prof. Dr. Sedat MURAT pointed out the same approach when he visited Turkish National Agency and stated that they will provide all kinds of support to scientists who prepare projects for funding from abroad, and he stated one more time that the project iHeal has a special importance of the university's 2018 projects, it is understood well one more time that the Upskilled Elders in Digital Health Literacy to Prevent Marginalization and Exclusion, has crucial and unique importance especially in the Covid-19 related process.

It was emphasized that the project aims to

design and develop an inclusive, interactive and user-friendly digital platform to improve digital health literacy for the elderly European population (50+).

Another place was to promote iHeal project was in EU Vocational Skills Week activities. EU Vocational Skills Week activities held on 09-13 November, 2020 with 1009 events in 38 countries, with the participation of 3520777 participants all over program countries. BOSEV and CSI were our project partners who participated in these events with iHeal in their countries. CSI introduced iHeal project additionally within a Multiplier Event of Family Caregiver Support project, because of having the similar target group. In addition to all these, the project was also presented to the international conference participants on 6th International Scientific Conference held by University College of Business in Tirana/Albania.

We invite all parties to the social media channels to be updated with more dissemination activities ongoing.

IT IS NEVER TOO EARLY OR TOO LATE TO WORK TOWARDS BEING THE HEALTHIEST YOU!
